

"Ukraine Family Support" is focused on helping refugees from Ukraine relocate to the United States. In April 2022 the Biden administration announced the Uniting4Ukraine program to allow 100,000 Ukraine citizens to legally migrate to the United States. The program requires the Ukraine Family to have a sponsor in the United States.

Saint Michael's is helping to support a Ukraine Family that arrived on September 28th. All donations and expenditures for the family are run through a separate account at the church.

The family consists of a father, mother and a 15-year-old son. Our goal is to help the family become acclimated into the community and become self-sufficient.

How can you help? Financial donations can be made to Saint Michael Catholic Church, please indicate on your check that these funds are for the Ukraine Family. You can also contribute with a credit card by going to the church website at saintmichael.cc. You can offer prayers for the family as they are going through so many changes. You can help by spending time with the family by taking them to dinner, a boat ride on Lake Lanier, a day trip to mountains, etc.
